

The background of the slide is an abstract watercolor wash in various shades of blue, ranging from deep navy to light sky blue, with soft, irregular edges. A solid dark grey horizontal bar spans the bottom of the image, containing the title and subtitle text.

Certificates of Publication – MDPI Journals

A chronological compilation of
official publication certificates

Certificates of Publication - MDPI Journals

This document presents a compiled collection of official publication certificates corresponding to peer-reviewed research articles published in international open-access journals edited by MDPI.

The certificates included serve as formal documentary evidence of publication and confirm that the articles have successfully undergone editorial and peer-review processes in their respective journals.

Gabriel Marín Díaz

Madrid, 2026

Document Description

- The compilation includes publication certificates from journals covering multiple scientific areas, such as:
 - Artificial Intelligence
 - Mathematics
 - Astronomy
 - Engineering and Decision Sciences
 - Education and Data Analysis
- The content is organized **chronologically**, from the most recent publications to earlier ones.
- Each article is presented together with its **official certificate issued by the publisher**, ensuring traceability and verification.
- The document is intended for **academic, institutional, and professional reference purposes**, and does not replace the original publications or their bibliographic records.

REVIEW CONFIRMATION CERTIFICATE

We are pleased to confirm that

Gabriel Marín Díaz

has reviewed 127 papers for the following MDPI journals in the period 2024–2026:

Information, AI, Green, Electronics, Machine Learning and Knowledge Extraction, Entropy, Sensors, Mathematics, Systems, Journal of Imaging, Applied Sciences, Machines, Computers, Data, Education Sciences, Future Internet, Symmetry, Signals, Sustainability, Healthcare, World Electric Vehicle Journal, Processes, Big Data and Cognitive Computing, Knowledge, Journal of Theoretical and Applied Electronics, Commerce Research

Stefan Tochev, Chief Executive Officer

18 August 2026

MDPI is a publisher of open access, international, academic journals. We rely on active researchers, highly qualified in their field to provide review reports and support the editorial process. The criteria for selection of reviewers include: holding a doctoral degree or having an equivalent amount of research experience; a national or international reputation in the relevant field; and having made a significant contribution to the field, evidenced by peer-reviewed publications.
